"Be the change that you want to see in the world."

Position

Indian Institute of Science, Bangalore — *Bangalore, India*

Professor, Department of Computer Science and Automation — *June 21, 2025–*

Indian Institute of Science, Bangalore — *Bangalore, India*

Associate Professor, Department of Computer Science and Automation — *May 12, 2020–June 21, 2025*

Silence Laboratories, Singapore — *Bangalore, India*

Visiting Professor — *May 1, 2024–June 30, 2024*

Google Research — *Bangalore, India*

Visiting Faculty Researcher — *August 1, 2022–July 31, 2023*

Indian Institute of Science, Bangalore — *Bangalore, India*

Assistant Professor, Department of Computer Science and Automation — *May 30, 2014–May 11, 2020*

Education

Indian Institute of Technology (IIT) Madras — *Chennai, India*

Ph.D. in Computer Science and Engineering — *August 2006–May 2010*

- Dissertation Area: Cryptography
- Dissertation Title: Studies on Verifiable Secret Sharing, Byzantine Agreement and Multiparty Computation

Indian Institute of Technology (IIT) Madras — *Chennai, India*

Master of Science (by research) in Computer Science and Engineering — *August 2004–July 2006*

- Dissertation Area: Image Processing
- Dissertation Title: Efficient Methods for Face Recognition and Multimodal Biometry

Haldia Institute of Technology — *West Bengal, India*

Bachelor of Technology in Computer Science and Engineering — *August 2000–July 2004*

- Dissertation Area: Formal methods of verification
- Dissertation Title: Development of Timing Analysis Tool for Asynchronous Systems

Experience

University of Bristol — *Bristol, UK*

Post-doctoral Researcher (Hosted by Prof. Nigel P. Smart) — *September 2012–December 2013*

ETH Zurich — *Zurich, Switzerland*

Post-doctoral Researcher (Hosted by Prof. Ueli Maurer) — *September 2011–August 2012*

Aarhus University — *Aarhus, Denmark*

Post-doctoral Researcher (Hosted by Prof. Ivan Damgård) — *September 2010–August 2011*

Research Interest

My specialisation is in cryptography, a key enabling technology for cybersecurity. In cryptography, my primary focus is on secure multi-party computation (MPC), the standard bearer and holy-grail problem, that permits a collection of data-owners to compute a collaborative result, without any of them gaining any knowledge about the data provided by the other, except what is derivable from the final result of the computation. MPC finds application in any scenario that involve computations on sensitive data from two or more entities. Till date, it has shown demonstrable success in several real-life scenarios, with significant payoff to society. For instance, it has been used– (a) to securely analyze the sensitive salary data of more than 10 millions of employees in the Greater Boston Area in order to calculate pay disparity across gender and race; (b) to train a model on private medical data held by several sources to offer best treatment for diseases like HIV, skin cancer, retinopathy; (c) to compute the probability of two satellites colliding in the space for satellites owned by competing countries; (d) to implement secure auction to find a fair price for sugar-beet in Denmark; (e) to implement online sexual assault reporting platform (allegation escrow) that will detect repeat perpetrators and create pathways to support for victims. Other compelling uses of MPC include disease surveillance, electricity trading markets, scientific discovery, smart-cities, genomics, homeland and cyber security, global advanced persistent threat identification in corporate network data, tax fraud detection and the numerous applications in medicine, finance sector, self-driven automobiles that fall under secure machine learning and prediction.

My secondary interest lies in the area of fault-tolerant distributed computing that includes classic problems such as Byzantine Agreement aka BA (and its close relative broadcast). BA that allows a set of distrusting parties to jointly reach agreement on their private inputs even in the face of a coalition of cheating parties. BA has been used to build *robust* systems since long. Its solutions have been lending their power in systems ranging from flight control, to databases, to peer-to-peer; Microsoft uses BA in Farsite; many structured peer-to-peer systems use BA. Both broadcast and BA also serve as important building block of MPC. Lastly and importantly, BA has reappeared in a new avatar in the form of *Block-chain* technology.

The core focus of my research can thus be broadly classified into two areas as follows: (a) Theory and Practice of MPC; (b) Fault-tolerant Distributed Computing. The main goal and the publications under each category is given below.

Theory and Practice of MPC: The foundational questions for MPC and its building blocks such as circuit garbling, oblivious transfer (OT), commitment schemes, zero-knowledge protocols, verifiable secret sharing (VSS), public key encryptions (PKE), are concerned with the feasibility of realizing these tasks, finding inherent lower bounds on the resources needed for solving these tasks and finding resource-efficient constructions. The resource required by a cryptographic protocol is determined by its computation, round and communication complexity. My selected works in the theory regime have appeared in ***STOC 2023, CRYPTO [2022(2), 2021, 2018, 2017, 2009], FOCS 2020, EUROCRYPT [2024, 2023], TCC [2024, 2022(4), 2020], ASIACRYPT [2022, 2020, 2019, 2013, 2012, 2011], PODC 2012, DISC 2013, IEEE Transactions on Information Theory [2018, 2017], Journal of Cryptology [2021, 2017, 2015], ACM Computing Survey 2022***.

Building practically-efficient constructs for MPC, their proof-of-concept implementations, performance analysis on specific tasks (such as training a ML model for breast cancer/retinopathy/skin cancer securely, performing secure prediction, e-voting) is the primary concern here. My selected works in the practical regime have appeared in ***IEEE S&P 2024, Journal of Cryptology 2023, ACM CCS [2024, 2022, 2019, 2018], USENIX Security 2021 (2 papers), WWW 2023, NDSS [2022, 2020, 2017], PoPETS [2025, 2024, 2023, 2022, 2020]***.

Fault-tolerant Distributed Computing: Apart from BA and broadcast, I also work on the problem of reliable message transfer (RMT) over untrusted network in this domain. My focus involves foundational feasibility, efficiency and optimality questions, in terms of resources such as round (running time), communication and computation, as in the MPC domain. My selected works in this regime have appeared in ***Journal of ACM [2020, 2012], Distributed Computing [2020, 2014], PODC [2025, 2018, 2016, 2010, 2009, 2008], DISC 2017, Journal of Parallel and Distributed Computing 2011, OPODIS 2011***.

Preprints & Manuscripts (J: journal, C: conference, M: Manuscript)

1. (C) Ivan Damgaard, Shravani Patil, **Arpita Patra**, Lawrence Roy. New Upper and Lower Bounds for Perfectly Secure MPC. *Under submission*
2. (C) Banashri Karmakar, Aniket Kate, Shravani Patil, **Arpita Patra**, Sikhar Patranabis, Protik Paul, Divya Ravi. Fast Asynchronous MPC with a Friend. *Under submission*
3. (C) Siddharth Kapoor, Nishat Koti, Varsha Bhat Kukkala, **Arpita Patra**, Bhavish Raj Gopal. emGraph: Efficient Multiparty Secure Graph Computation. *Under submission*
4. (C) Siddharth Kapoor, Shyam Murthy, Sriram Murthy, **Arpita Patra**, Raghavan Ramesh and Bhavish Raj Gopal. SMILIES: Secure eMaIL InfrastructurE and Services. *Under submission*
5. (J) **Arpita Patra**, Joachim Schmidt, Thomas Schneider, Ajith Suresh, Hossein Yalame. SynCirc: Efficient Synthesis of Depth-Optimized Circuits from High-Level Languages. *Under submission*
6. (C) Yongqin Wang, Pratik Sarkar, Nishat Koti, **Arpita Patra**, Murali Annavaram. CompactTag: Reducing Actively-Secure MPC Tag Overheads for Linear Layers in Deep Neural Networks. *Under submission*
7. (C) Nishat Koti, Varsha Bhat Kukkala, **Arpita Patra**, Bhavish Raj Gopal. Entrada to Secure Graph Convolutional Networks for Defying Fraud. *Under submission*
8. (C) Banashri Karmakar, Shyam Murthy, **Arpita Patra**, Protik Paul . QuickPool: Privacy-Preserving Ride-Sharing Service. *Under submission*

Projects & Grants

Secure Compute for smart-grids and ride-sharing — *Government of Karnataka*

Arpita Patra — *2024– 2029*

- This is part of Centre of Excellence for Cybersecurity, Phase 3 approved by Govt. of Karnataka. Other PIs: Vinod Ganapathy, Debayan Das, Utsav Banerjee, Haresh Dagale
- Amount: ₹1.82 Crores or equivalently 216796$

Efficient differential privacy via secure multi-party computation — *Google*

Arpita Patra — *2023– 2024*

- Google Privacy Research Faculty Awards 2023.
- Amount: 75,000$ or equivalently ₹6416902

FinSec: Secure Analytics over Financial Data — *J P Morgan Chase*

Arpita Patra — *2023– 2024*

- This is part of the J. P. Morgan Chase Faculty Award 2022. This award is jointly won along with Gilad Asharov of Bar Ilan University.
- Amount: 110,000$ or equivalently ₹9411457

Efficient Multiparty Computation for Secure Data Collaboration — *SONY*

Arpita Patra — *2023– 2024*

- This is part of the SONY Faculty Innovation Award 2021.
- Amount: 86,000$ or equivalently ₹68,20,245

Secure Multi-party Computation For Data Privacy in Smart Cities — *National Security Council*

Arpita Patra — *2021– 2024*

- This is a part under an umbrella project hosted by Indian Urban Data Exchange (IUDX) Program Unit, Indian Institute of Science.
- Amount: ₹198,00,000

Theory and Practice of Secure Computation — *IISc Alumni Endowment*

Arpita Patra — *2021– 2024*

- Amount: ₹4,00,000

Token-aided Secure Multi-party Computation (SP/IITK-19-0001) — *DST, India*

Arpita Patra — *2021– 2026*

- This is a part of bigger initiative of 'Technology Innovation Hub (TIH)' under the National Mission on 'Cyber Security and Cyber Security for Physical Infrastructure', set up at IIT Kanpur with IISc, IIT Kharagpur, IIIT Allahabad and AKTU Lucknow as initial national academic partners, and University of California, San Diego, New York University, New York and Abu-Dhabi Campus, Tel Aviv University and Ben Gurion University in Israel as initial international academic partners. At IISc, I share this grant with Vinod Ganapathi.)
- Amount: ₹502,00,000

Privacy-preserving Machine Learning for Social Good [FA/GOGL-20-0001] *Google*

Arpita Patra *28 July 2020– 27th July 2023*

- Google India AI/ML Research Award 2020
- Amount: $ 20,000 or equivalently ₹1711174.
- $ 12,000 Cloud Platform (GCP) credits for the year 2021.
- $ 10,000 Cloud Platform (GCP) credits for the year 2022.

Cryptography with Minimal Communication [SA/DSTO-19-0218] *SERB, India*

Arpita Patra *19th March 2020–18 March 2023*

- SERB MATRICS (Mathematical Research Impact Centric Support) 2020
- Amount: ₹ 6,60,000

Secure Multi-party Computation: Feasibility and Efficiency [SP/DSTO-16-1706] *SERB, India*

Arpita Patra *22nd March 2017 –21st March 2020*

- Women Excellence Award 2017
- Amount: ₹ 18,00,00

Efficient Secure Multi-party Computation [SA/DSTO-15-1467] *DST, India*

Arpita Patra *26th October 2015– 25th October 2020*

- Inspire Faculty Award 2015
- Amount: ₹ 35,00,00

Zero-knowledge Protocols and Applications of MPC *IBM IRL*

Arpita Patra *2019*

- *Open Short-term Collaborative Programme (OSCP)* 2019
- Student and PI can collaborate with IBM IRL researchers. Student can travel to present research work in a conference where the joint work gets published.

Multi-party Computation *Engineering and Physical Sciences Research Council (EPSRC), UK*

PI: Nigel P. Smart, co-PI: Arpita Patra, Ashish Choudhury *July 2015– July 2017*

- Amount: 70,471 GBP

Secure Multiparty Computation- startup grant *IISc*

Arpita Patra *July 2014– July 2016*

- Startup Grant by IISc
- Amount: ₹25,00,000

Honors & Awards

2023	Prof. S. K. Chatterjee Award for Outstanding Woman Researcher or Industry Leader 2023.
2023	Google Privacy Research Faculty Awards 2023.
2022	J. P. Morgan Chase Faculty Award 2022.
2022	SONY Faculty Innovation Award 2021.
2021	Featured in 'Women's Day Special: Meet India's leading AI researchers' by INDIAai, a MEITY, NEGD & NASSCOM Initiative, 2021.
2020	Fast-track promotion to Associate Professor at IISc, 2020.
2020	Google India Research Award 2020.
2018	The National Academy of Sciences, India (NASI)-Young Scientist Platinum Jubilee Award 2018.
2018	Google Travel grant for attending CRYPTO 2018.
2017	Council Member of Indian Association for Research in Computing Science (IARCS) (2017-2021).
2017	TWAS (The World Academy of Sciences) Young Afiliateship (2017-2021).
2017	The Indian National Academy of Engineering (INAE) Young Engineer Award 2017.
2017	The Indian National Academy of Engineering (INAE) Young Associateship (2017-2028).
2017	The Science and Engineering Research Board (SERB) Women Excellence Award 2017.
2015	The Indian Academy of Sciences (IAS) Associateship (2015-2018).
2015	Department of Science & Technology (DST) INSPIRE Faculty Fellowship (2015-2020).
2008	Google India Women in Engineering Award 2008.
2008	Microsoft Research PHD Fellowship (2006-2010).

Academic Visits

The University of Sydney
Hosted by (Prof. Sri AravindaKrishnan Thyagarajan)
Sydney, Australia
16th May 2025 - 2nd June 2025

Purdue University
Hosted by (Prof. Aniket Kate)
West Lafayette, USA
24-26 April 2025

University of Chile
Hosted by (Prof. Alejandro Hevia)
Santiago, Chile
3rd January 2025 - 8th January 2025

Tokyo University of Agriculture and Technology, Japan
Hosted by (Prof. Shun Watanabe)
Shonan Village Center, Japan
1st-3rd August 2024

Bar Ilan University
Hosted by Cyber Security Center (Prof. Benny Pinkas and Prof. Carmit Hazay)
Tel Aviv, Israel
1st June 2019 - 22nd June 2019

Technion – Israel Institute of Technology
Hosted by Prof. Yuval Ishai
Haifa, Israel
27 April 2019– 31st May 2019

Schloss Dagstuhl
Seminar on 'Practical Yet Composably Secure Cryptographic Protocols', organized by Profs. Jan Camenisch, Ralf Küsters, Anna Lysyanskaya, Alessandra Scafuro
Dagstuhl, Germany
20 January 2019– 25 January 2019

Technische Universität Darmstadt — *Darmstadt, Germany*
Hosted by Prof. Thomas Schneider — *17 January 2019– 19 January 2019*

Cornel Tech. — *New York, USA*
Hosted by Prof. Muthuramakrishnan Venkitasubramaniam — *24 August 2018– 1 September 2018*

UC Berkeley — *Berkeley, USA*
Hosted by Prof. Sanjam Garg — *12 August 2018– 16 August 2018*

Aarhus University — *Aarhus, Denmark*
Hosted by Prof. Ivan Damgård — *May 2018–July 2018*

Bristol University — *Bristol, UK*
Hosted by Prof. Nigel Smart — *May 2015–July 2015*

Indian Statistical Institute (ISI) Kolkata — *Kolkata, India*
Hosted by Prof. Bimal Roy — *January 2014–May 2014*

Bar-Ilan University — *Tel-Aviv, Israel*
Hosted by Prof. Yehuda Lindell — *January 2013–March 2013*

Talks & Presentations

1. Perfectly-secure Network Agnostic MPC with Optimal Resiliency
   (a) 17th June 2025. TALK at ***PODC 2025***, Huatulco, Mexico
2. The Communication Complexity Landscape of Perfect MPC
   (a) 12th June 2025. INVITED TALK at ***TCG Crest Kolkata***
   (b) 20th May 2025. INVITED TALK at ***Department of Computer Science, University of Sydney, Australia***
   (c) 24th April 2025. INVITED TALK at ***Department of Computer Science, Purdue University, USA***
   (d) 1st-3rd August 2024. INVITED TALK at ***IEEE East Asian School of Information Theory 2024, Shonan, Japan***
   (e) 4th December 2024. INVITED TALK at ***IITB Trust Lab Colloquium, Mumbai, India***
3. Perfect Asynchronous MPC with Linear Communication Overhead
   (a) 27th May 2024. TALK at ***Eurocrypt 2024, Zurich, Switzerland***
   (b) 4th June 2024. TALK at ***TPMPC 2024, Darmstdat, Germany***
4. Vogue: Faster Computation of Private Heavy Hitters
   (a) 1st April 2024. INVITED TALK at ***ISI Kolkata, India***
5. From theory to practice: the Marvellous journey of Mighty MPC
   (a) 4th January 2025. Invited Talk at ***Department of Computer Science, University of Chile***
   (b) 20th December 2024. Talk at ***IIT Delhi***
   (c) 17th September 2024. Talk at ***IIT Guwahati***
   (d) 27th June 2024. Keynote Talk at ***Women in Data Science Bangalore at Intuit***
   (e) 2nd February 2024. ***CSA Faculty Colloquium, IISc, Bangalore, India.***
   (f) 15th December 2023. Keynote Talk at ***13th International Conference on Security, Privacy, and Applied Cryptographic Engineering (SPACE) 2023, IIT Roorkee***
   (g) 27th December 2023. INVITED TALK at ***ISI Kolkata, India***
6. Co-curricular activities— how do they help in research and holistic growth
   (a) 7th July, 2023. INVITED TALK at ***ACM India Grad Cohort 2023, IISc Bangalore, India*** **Organized my solo photography Exhibition together with this talk, co-sponsored by ACM**
7. Quadratic Multiparty Randomized Encodings Beyond Honest Majority and Their Applications
   (a) 11th June 2023. INVITED TALK at ***TCG Crest, Kolkata, India***
   (b) 9th June 2023. INVITED TALK at ***CSE, IIT Kharagpur, India***
   (c) 17th April 2023. ***Invited talk at Trust Lab, IIT Bombay, India.***
   (d) 9th September, 2022. INVITED TALK at ***Bangalore Crypto Day (BCD), India.***
8. Miles to go before I Sleep...
   (a) 20th July, 2022. INVITED TALK under "Breaking Barriers: Inspiring Stories" in ***ACM-W India Grad Cohort 2022.***
9. Three-Round Secure Multiparty Computation from Black-Box Two-Round Oblivious Transfer.

(a) 17th August, 2021. ***CRYPTO 2021.***
(b) 24th July 2023. ***Invited talk at Trust Lab colloquium series , IIT Bombay, India.***

10. MPC meets ML: Privacy-Preserving Machine Learning.
    (a) 5th August, 2021. ***Monash Cybersecurity Seminar.***
    (b) 15th December, 2022. INVITED TALK at Interdisciplinary Workshop on ML for Cryptology ML4Crypto 2022 at ISI Kolkata.
11. The Resiliency of MPC with Low Interaction: The Benefit of Making Errors.
    (a) 19th November, 2020. ***TCC 2020.***
12. Secure Multi-party Computation.
    (a) 21st March 2025. ***Invited talk IIT Gandhinagar.***
    (b) 18th December 2024. ***Invited talk University of Kathmandu, Kathmandu, Nepal.***
    (c) 2nd September 2023. ***Invited talk at a symposium on 'Advances in Engineering Sciences' held at NITK Surathkal, in collaboration with the Indian Academy of Sciences, Bangalore.***
    (d) 8th April 2022. ***Invited talk at the thematic cluster "Core Research" at RIISE , a yearly event at IIIT Delhi, India***
    (e) 25th November 2020. ***Colloquium talk at the Computer Science Department, Ashoka University, Sonipat, Haryana, India***
    (f) 19th October 2020. Indian Dutch Cyber Security School (IDCSS) 2020
    (g) 6th May 2020. ***Invited talk at Samgacchadhwam Series, Conducted by Center of Excellence in Cyber Security, An initiative by Government of Karnataka.***
    (h) 2nd December, 2019. ***Invited Talk at CSE, IIT Ropar, India.***
    (i) 23rd December 2019. ***Invited talk at Department of Mathematics, NISER Bhubaneswar.***
    (j) 7th September 2018. ***Invited Talk at National Workshop on Cryptology 2018, CR Rao Advanced Institute of Mathematics, Statistics and Computer science, Hyderabad, India.***
13. Fast Actively-Secure 5-Party Computation with Security Beyond Abort.
    (a) 13th November, 2019. ***ACM CCS 2019 at London, UK.***
14. The Round Complexity Landscape of Secure Computation.
    (a) 6th September, 2019. ***Talk at IIT Kharagpur.***
    (b) 20th June 2019. ***Invited talk at 'Theory and Practice of Secure Multi-party Computation (TPMPC) 2019' at Bar-Ilan University, Israel.***
    (c) (upcoming) 19th January 2020. ***Talk at 'Secure Multi-party Computation: Theory and Practice 2020 at Indian Institute of Science, India.***
15. How to Choose a Research Topic. 6-7th July 2019. ***Invited talk at ACM India Grad Cohort 2019 at IIT Delhi, India.***
16. Fast Secure Computation for Small Population over the Internet.
    (a) 10th January 2019. ***Invited talk at "Fairness and Privacy" joint workshop by IISc-UPen-MSR Workshop, Bangalore***
    (b) 17th January, 2019. ***Invited talk at CROSSING Research Seminar at Technische Universitat Darmstadt, Germany.***
17. Cryptography and Machine Learning: Past, Present and Future.
    (a) 26th June 2019. ***Invited talk at ACM India summer school on Algorithmic and Theoretical aspects of Machine learning, IIIT Bangalore.***
    (b) 12th October 2018. ***Invited talk at Faculty Colloquium, CSA IISc.***
    (c) 27th October 2018. ***Invited talk at International Society of Automation, Bangalore, India.***
    (d) 26th November 2018. ***Invited talk at LNM Institute of Information Technology, Jaipur, respectively.***
18. Privacy-Free Garbled Circuits for Formulas: Size Zero and Information-Theoretic. 6th July 2018. ***Talk at Crypto Summer Day, 2018***, Aarhus, Denmark.
19. On the Exact Round Complexity of Three-party Computation. 29th May 2018. ***Contributed talk at Theory and Practice of Multi-party Computation (TPMPC), 2018***, Aarhus, Denmark.
20. Multi-party Computation. 16th March 2018. ***Invited Speech at IEEE CONECCT 2018***, Bangalore, India.
21. Impossibility Results for Information-theoretic Multi-party Computation. 8th January 2018. ***Invited Speech at IISC-IACR School on Cryptology 2018***, Bangalore, India.
22. Information-theoretic Multi-party Computation with Honest Majority. 7th January 2018. ***Invited Speech at IISC-IACR School on Cryptology 2018***, Bangalore, India.
23. OT Extensions. May and June 2017. ISEA Workshop on Cryptography, IISc, India.
24. Garbled Circuit and Yao Two Party Computation. May and June 2017. ISEA Workshop on Cryptography, IISc, India.
25. Computing on Private Data aka Multi-Party Computation. May and June 2017. ISEA Workshop on Cryptography, IISc, India.
26. Fast Actively Secure OT Extension for Short Secrets. March and April 2017. ***Invited Talk at MPC School and Workshop***, IIT Bombay, India and *Theory and Practice of Multi-Party Computation Workshop*, Bristol, UK.
27. Garbled Circuit and Yao's Two-party Computation. March 2017. ***Invited Talk at MPC School and Workshop***, IIT Bombay, India.
28. Oblivious Transfer and Extensions. March 2017. *MPC School and Workshop*, IIT Bombay, India.
29. A Tribute to Diffie and Hellman: The Winners of Turing Award 2015. March 2016. *Dept. of Computer Science & Automation*, IISc, India.
30. Introduction to Cryptography. February 2015. *Workshop on Introduction to Cryptography*, IISc, India.
31. Perfect Security. February 2015. *Workshop on Introduction to Cryptography*, IISc, India.
32. PRF and CPA-Security of SKE. February 2015. *Workshop on Introduction to Cryptography*, IISc, India.
33. Introduction to Secure Computation. February 2015. *Workshop on Topics in Cryptography*, IISc, India.
34. Secret Sharing and Information-Theoretic Secure Computation. February 2015. *Workshop on Topics in Cryptography*, IISc, India.
35. Multiparty Computation. November 2015. *Annual Meeting of Indian Academy of Sciences*, IISER Pune, India.
36. Linear Overhead Multiparty Computation with Honest Majority.
    (a) September 2015. *National Workshop on Cryptology 2015*, KIT, Bhubaneswar, India.
    (b) August 2015. *IIIT Delhi*, India.

37. Verifiable Secret Sharing. December 2014. *Recent Advances in Cryptography Workshop*, IIT Delhi, India.
38. Between a Rock and a Hard Place: Interpolating Between MPC and FHE. December 2013. *ASIACRYPT 2013*, Bengaluru, India.
39. A simple and Efficient Framework for Secure Multiparty Computation.
    (a) 1st November 2013. *IISc Bangalore*, Bengaluru, India.
    (b) October 2014. *Indo-Russian Workshop on Discrete Mathematics, Algebra, Number Theory and their Applications*, Moscow State University, Russia.
40. Asynchronous Multiparty Computation with Linear Communication Complexity. October 2013. *DISC 2013*, Jerusalem, Israel.
41. Anonymous Authentication with Shared Secrets. January 2013. *Bar-Ilan University*, Ramat Gan, Israel.
42. December 2012. Anonymous Authentication with Shared Secrets. *ISI Kolkata*, Kolkata, India.
43. Computational Verifiable Secret Sharing Revisited. *ASIACRYPT 2011*, Seoul, South Korea.
44. Error-free Multi-valued Broadcast and Byzantine Agreement with Optimal Communication Complexity.
    (a) August 2011. *ISI Kolkata*, Kolkata, India.
    (b) December 2011. *OPODIS 2011*, Toulouse, France.
45. Communication Optimal Multi-valued Asynchronous Byzantine Agreement with Optimal Resilience. May 2011. *ICITS 2011*, Amsterdam, The Netherlands.
46. Verifiable Secret Sharing. May 2010. *National Level Instructional Workshop on Cryptology 2010*, Imphal, Manipur, India.
47. On Communication Complexity of Secure Message Transmission in Directed Networks. January 2010. *ICDCN 2010*, Kolkata, India.
48. Round Efficient Unconditionally Secure MPC and Multiparty Set Intersection with Optimal Resilience. December 2009. *INDOCRYPT 2009*, New Delhi, India.
49. Efficient Statistical Asynchronous Verifiable Secret Sharing with Optimal Resilience. December 2009. *ICITS 2009*, Japan.
50. Secure Distributed Computation and Communication. September 2009. *Grace Hopper Celebration of Women in Computing (GHC) 2009*, Tucson, Arizona, USA.
51. Information Checking Protocols. September 2009. *Grace Hopper Celebration of Women in Computing (GHC) 2009*, Tucson, Arizona, USA.
52. Reliable and Secure Message Transmission. September 2009. *Grace Hopper Celebration of Women in Computing (GHC) 2009*, Tucson, Arizona, USA.
53. The Round Complexity of Verifiable Secret Sharing Revisited. August 2009. *CRYPTO 2009*, Santa Barbara, USA.
54. Simple and Efficient Asynchronous Byzantine Agreement with Optimal Resilience. August 2009. *PODC 2009*, Calgary, Canada.
55. Information Theoretically Secure Multi Party Set Intersection Re-Visited. August 2009. *SAC 2009*, Calgary, Canada.
56. Secret Sharing Protocols. June 2009. *CRSI-IMSc Joint Workshop on Teaching Cryptology 2009*, ISI, India.
57. Round Efficient Unconditionally Secure Multiparty Computation Protocol. December 2008. *INDOCRYPT 2008*, IITKgp, India.
58. On Tradeoff Between Network Connectivity, Phase Complexity and Communication Complexity of Reliable Communication Tolerating Mixed Adversary.
    (a) August 2008. *China Theory Week (CTW) 2008*, Tsinghua University, Beijing, China.
    (b) August 2008. *PODC 2008*, Toronto, Canada.
59. Perfectly Reliable and Secure Communication Tolerating Static and Mobile Mixed Adversary. August 2008. *ICITS 2008*, Calgary, Canada.
60. Probabilistic Perfectly Reliable and Secure Message Transmission - Possibility, Feasibility and Optimality. December 2007. *INDOCRYPT 2007*, Chennai, India.
61. Perfectly Secure Message Transmission in Directed Networks Tolerating Threshold and Non Threshold Adversary. December 2007. *CANS 2007*, Singapore.
62. Constant Phase Bit Optimal Protocols for Perfectly Reliable Message Transmission. December 2006. *INDOCRYPT 2006*, Kolkata, India.

Professional Activities

Editor

Co-editor of the special issue on Cryptography under Journal of the Indian Institute of Science), to be published by Springer Nature in 2026. Jointly with Chaya Ganesh.

Editorial Board Member

– Sadhana (Computer and Data Sciences), Springer (2018-2021).

Programme Committee (PC) Chair

– ASIACRYPT 2027.

– CT-RSA (The Cryptographers' Track at RSA Conference) 2025.

– ARCS 2024 (18th Academic Research and Careers for Students Symposium), ACM India, along with Dr. Karthik Ramachandra, MSR.

– CANS 2022 (21st International Conference on Cryptology and Network Security) along with Prof. Alastair R. Beresford, University, UK.

– ICDCN 2020 (21st International Conference on Distributed Computing and Networking) along with Prof. Keren Censor-Hillel, Technion, Israel.

– INDOCRYPT 2017 (18th International Conference on Cryptology in India) along with Prof. Nigel Smart, University of Bristol, UK.

Steering Committee member

– Theory and Practice of Multi-party Computation Workshops (2023–): The TPMPC workshops aims to bring together practitioners and theorists working in multi-party computation. The TPMPC workshops continue a tradition of workshops started in Aarhus, Denmark in 2012. TPMPC is a yearly event.

Reviewer for proposals

– Algorand's the Algorand Centres of Excellence (ACE) programme 2022.

– The Israel Science Foundation (ISF)'s Personal Research Grant 2020.

Programme Committee (PC) Member

2027	ASIACRYPT (**Program Chair**)) (**Declined**– EUROCRYPT)
2026	ASIACRYPT) (**Declined**– EUROCRYPT)
2025	CT-RSA (**Program Chair**) (**Declined**– SODA, CRYPTO, EUROCRYPT, ASIACRYPT, PoPETs, LatinCrypt)
2024	ASIACRYPT as **AREA-Chair for MPC and Zero-knowledge**, EUROCRYPT, CT-RSA (**Declined**– PODC, TCC, PoPETs, PKC, ITC)
2023	ACM CCS, CRYPTO, EUROCRYPT (area chair for MPC and ZK) (**Declined**– ASIACRYPT, Editorial board of Information and Computation, SSS, ICDCS, CSCML)
2022	ACM CCS (**Declined**– Editorial board of Dependable and Secure Computing, NDSS, AAAI, ICDCS, AFRICACRYPT, ICISS, ICDCN, TPMPC)
2021	ACM CCS, PODC, ITC'21, ARCS (**Declined**– ASIACRYPT, OPODIS, FSTTCS, CSCML, ACM CODASPY, ICDCN, ASIACCS, ICISS, CFAIL)
2020	ASIACRYPT, INDOCRYPT, ICDCN, (**Declined**– ICDCS, DISC, CSCML, PKC)
2019	ASIACRYPT'19 (**Declined**– PKC, ICDCS, FSTTCS, INDOCRYPT)
2018	EUROCRYPT, ASIACRYPT, PKC, ICISS
2017	ASIACRYPT, PKC, ICITS, INDOCRYPT
2016-12	INDOCRYPT'16,'15,'12

Major Organization of events

3-6 March, 2025	Theory and Practice of Multi-Party Computation Workshop	*IISc, India*
19-22 Jan, 2020	Workshop on Multi-party Computation Theory & Practice	*IISc, India*
30-31 Jan 2020	Security Track in ACM-MSR Annual Academic Research Summit	*BITS Pilani, Goa, India*

Reviewer

Journal of Cryptology 2020, CRYPTO'16, STOC 2016, CRYPTO'15, ISIT'15, PKC'15, ASIACRYPT'14, ACM CCS'13, ASIACRYPT'13, PKC'13, CRYPTO'12, TCC'12, CRYPTO'11, Journal of Cryptology, TCC'11, INDOCRYPT'10, ASIACRYPT'10, PKC'10, ICITS'09, ICALP'09, ACISP'08, ICITS'08, ASIACRYPT'08.

Other Chairships

2019	**Tutorial co-Chair for** ICDCN

Thesis Reviewer

2025	**PhD Thesis of Anasuya Acharya,** Bar Ilan University
2024	**PhD Thesis of Hossein Yalame,** TU Darmstdat
2023	**PhD Thesis of Rajeevalochana M.R,** IIT Bombay
2020	**PhD Thesis of Varsha Bhat,** IIT Ropar
2019	**PhD Thesis of Sikhar Patranabis,** IIT Kharagpur

Session Chair

2013	**Asiacrypt** Bangalore
2020	**Asiacrypt** Virtual

Service to the Institute

1. Institute Committee Member of:
   (a) Member and counsellor of Students Affairs Committee (SAC) of IISc.
   (b) IISc Press committee: Amaresh Chakrabarti (Chair, CPDM), Justin David (CHEP), Mohit Kumar Jolly (BSSE), and Kaushal Verma (OoC, Ex-Officio)
   (c) K-Tech Centre of Excellence for Cyber Security Karnataka (CySecK)'s Technical Committee. Along with Profs. Rajesh Sundaresan (Chair), Vinod Ganapathy, Bhavana Kanukurthi, Joy Kuri, Himanshu Tyagi, Venkatesh Murthy (External Member from the Data Security Council of India)

2. Comprehensive Committee Member of:
   (a) 2020: Shesadri K. R., CDS, IISc
   (b) 2019: Kripa Shanker, CSA, IISc
   (c) 2017: Shuti Sekar, PhD, Maths and CSA, IISc
   (d) 2015: S B Balaji, ECE, IISc

3. Faculty Coordinator for:
   (a) Security Cluster at EECS Symposium 2022
   (b) Part of CSA Building committee and SWC.
   (c) Narendra Summer Internship 2019
   (d) Perspectives Seminar 2018
   (e) CSA Web Coordinator between August 2017 - February 2019
   (f) CSA Student Welfare Committee member starting from March 2018
   (g) DIGITs Active Directory Creation 2017
   (h) Divisional of Electrical Sciences (EECS) Student Symposium 2017 and 2018
   (i) CSA Open Day 2016

4. Interview Committee Member:
   (a) [2022] CSA M. Tech admission for ISRO, Defence (Army, Navy) and DRDO sponsored candidates.
   (b) [2014-2021] CSA research admission.
   (c) [2014-2015] UG admission via KVPY.

5. Institute Representative for GATE and KVPY: Served as IR for GATE 2017 to 2022 and KVPY 2017.
6. Public Talks:
   (a) How to Choose a research topic? ***Orientation Programme for Batch of 2019***, CSA IISc, India.
   (b) Cryptography and Machine Learning: Past, Present and Future, ***Invited talk at Faculty Colloquium***, CSA IISc, India.
   (c) A Tribute to Diffie and Hellman: The Winners of Turing Award 2015. ***Dept. of Computer Science & Automation, IISc, India. March 2016.***
   (d) The Joy of Cryptography. ***CSA Summer School 2017, IISc and Swagatham 2016, CSA, IISc.***
   (e) Computing on Private Data. ***IISc-IBM Day 2017, CSA, IISc.***
   (f) Young Faculty Speaker at EECS Symposium 2016.
   (g) Speaker at CSA Orientation Program 2014, 2015, 2016 and 2019.

Courses

1. QIP short-term course on "Foundations of Cryptography" offered from 30th August - 3rd September, through Centre for Continuing Education (QIP Programme - Sponsored by AICTE), Indian Institute of Science.
2. CSA E0 305: Blockchain and Its Applications. Credit: 3:1. January-April 2019.
3. CSA E0 221: Discrete Structures . Credit: 3:1. August-December 2014.
4. CSA E0 235: Cryptography . Credit: 3:1. January-April 2015, 2016, 2017, 2018, 2019, 2020 (both semesters), August-December 2021, 2023, 2024.
5. CSA E0 312: Foundations of Secure Computation. Credit: 3:1. August-December 2015, 2017, 2018, 2019; January-April 2024.

In all the above courses that are offered, I have received ratings *close to 5 on 5*. The average student strengths of the foundational courses on 'Discrete Structures' and 'Cryptography' are approximately *35*. The course on cryptography is quite popular among the UG students. The first offering of my advanced course on 'Foundations of Secure Computation' had 8 students and one of projects initiated in the course led to a publication in a top cryptography venue (NDSS 2017).

Students and Post-doctoral Supervision

Post-doctoral Researchers

1. Shravani Patil; Under private project (November 2024 –):
   (a) Research Area: Communication Complexity of MPC. Asynchronous Networks
   (b) Publications: Two papers are under submission

2. Shyam Murthy; Under private project (August 2023 – March 2025):
   (a) Research Area: Privacy-preserving Technologies for Ride-sharing, Health-care, Email Service, Agriculture.
   (b) Publications: Two papers are under submission

3. Varsha Bhat Kukkala; Institute of Eminence (IoE) fellow (August 2020– August 2021), Under private project (July 2021 – August 31 2023):
   (a) Research Area: Privacy-preserving Technologies for Allegation Escrows, ML, Darkpools etc.
   (b) Publications: *ACM CCS 2022, ASIACRYPT 2022, PoPETS 2023 (2 papers), WWW 2023, IEEE Transactions of Dependable and Secure Computing 2023, ACM CCS 2024.*
   (c) Awarded ***Student Best Presentation Award in the Security cluster at EECS Research Students' Symposium - 2023.***
   (d) Current Employment:Faculty at IIT Tirupati.

PhD

1. Divya Ravi (August 2016 – July 2020):
   (a) Thesis Title: The Round Complexity Landscape of Secure Multiparty Computation.
   (b) Thesis based on: *ASIACRYPT 2020, ASIACRYPT 2019*, *IEEE Transactions on Information Theory 2018*, *CRYPTO 2018*, *ACM CCS 2018*.
   (c) Publications: *TCC'22, ASIACRYPT 2020, ASIACRYPT 2019*, *IEEE Transactions on Information Theory 2018*, *CRYPTO 2018*, *ACM CCS 2018*, *SIROCCO 2018*, *DISC 2017* and ICITS 2017.
   (d) ***Her thesis is recognized as one of the 3 best theses at CSA in the year of 2020 and received Commendation Certificate from CSA department. Selected to attend Women in Theory workshop 2020. Received 2nd Prize at 10th IDRBT Doctoral Colloquium 2020. Student Best Paper Award at EECS Research Students' Symposium - 2020.***
   (e) Employment after PhD: Post-doctoral Researcher at Aarhus University, Denmark; Faculty at University of Amsterdam.

2. Ajith S (August 2017 – August 2021)
   (a) Thesis Title: MPCLeague: Robust MPC Platform for Privacy-Preserving Machine Learning.
   (b) Thesis based on: *NDSS'22, USENIX'21 (two papers), NDSS'20 (two papers), IEEE S&P (poster) 2021, ACM CCSW 2019*
   (c) Publications: *PoPETS 2024, USENIX'21 (two papers), IEEE S&P (poster) 2021, NDSS'20 (two papers), PoPETs 2020, ACM CCSW 2019, PPML 2019*, more under submission.
   (d) ***His thesis is recognized as one of the 3 best theses at CSA in the year of 2022 and received Commendation Certificate from CSA department.***
   (e) One of the NDSS'20 publications is a student paper (along with two other students).
   (f) ***Received Google PhD fellowship 2019. Selected to participate in Heidelberg Laureate Forum 2020.***
   (g) Employment after PhD: Post-doctoral Researcher at Technical University of Darmstadt, Germany; Senior Researcher at Technology Innovation Institute (TII), Abu Dhabi

3. Nishat Koti (August 2017 – July 2023): Secure Computation Suite for Privacy-conscious Applications
   (a) Now a researcher at Aztec labs, UK
   (b) Received Alumni Best Thesis Award 2025
   (c) Received ***Cisco PhD fellowship 2019.***
   (d) Publications: *ACM CCS 2024, IEEE S&P 2024, WWW 2023, Journal of Cryptology 2023, PoPETS 2023 (2 papers), IEEE Transactions of Dependable and Secure Computing 2023,, USENIX 2021, NDSS 2022, ACM CCS 2022, ASIACRYPT 2022* . Joint works under submission.
   (e) Awarded ***Student Best Presentation Award in the Security cluster at EECS Research Students' Symposium - 2022.***
   (f) Employment after PhD: Post-doctoral Researcher at Technical University of Darmstadt, Germany; researcher at Aztec labs, UK

4. Protik Paul (August 2018 – November 2024):
   (a) Now a post-doctoral researcher at TU Darmstadt
   (b) Thesis Title: Ankora: Notions of Multi-party Computation and Zero-knowledge Beyond Conventional Models
   (c) Publications: *IEEE S&P 2024, ASIACRYPT 2022, PoPETS 2022*. Joint works under submission.
   (d) Employment after PhD: Post-doctoral Researcher at Technical University of Darmstadt, Germany;

5. Shravani Patil (August 2019 – November 2024):
   (a) Thesis Title: Advancing the Communication Complexity Landscape of Perfectly Secure Multiparty Computation
   (b) Publications: *TCC 2022, ASIACRYPT 2022, EUROCRYPT 2023, EUROCRYPT 2024*. Joint works under submission.
   (c) Awarded the Murthy Govindaraju Women in Computer Science Research Endowment Award 2024.

6. Bhavish Raj Gopal (August 2022 – ongoing): Privacy-preserving Financial Applications.
   (a) Received ***The Prime Minister's Research Fellowship (PMRF) 2023.***
   (b) Received ***Kotak IISc AI-ML Center (KIAC) PhD top-up scholarship 2023.***
   (c) Received Google travel grant to attend ACM CCS, 2024
   (d) Publications: *POPETS 2025, ACM CCS 2024, PoPETS 2023 (2 papers), WWW 2023, IEEE Transactions of Dependable and Secure Computing 2023, ACM CCS 2022*. Joint works under submission.

7. Banashri Karmakar (January 2022 – ongoing): Privacy-preserving Recommendation Systems
   (a) Received ***The Prime Minister's Research Fellowship (PMRF) 2023.***
   (b) Received ***TCS PhD Fellowship 2023.***
   (c) Publications: *IEEE S&P 2024*. Joint works under submission.

8. Moumita Dutta (August 2020 – ongoing): Co-guiding with Chaya Ganesh. Consensus protocols.
9. Riddhiman Dutta Roy (August 2023 – ongoing): Communication Complexity of MPC.
10. Raghavendra Vernekar (August 2024 – ongoing): Doing necessary course works.
11. Pabitra Mandal (August 2024 – ongoing): Doing necessary course works.

M. Tech (Research)

1. Ajith S (August 2014 – August 2017):
   (a) Thesis Title: Fast Actively Secure OT Extension for Short Secrets
   (b) Thesis based on: *NDSS 2017*
   (c) Completed PhD under my supervision between August 2017 to August 2021.

2. Pratik Sarkar (August 2015 – August 2018):
   (a) Thesis Title: Adaptively Secure Primitives in the Random Oracle Model
   (b) Thesis based on: *PKC 2018* .

(c) Publications: *NDSS 2017*, *PKC 2018*, *SIROCCO 2018*.
(d) Recipient of M. Tech funding from *Robert Bosch Center for Cyber Physical Systems for the project titled "Computing on private data in high-latency networks"* .
(e) PhD at Boston University from September 2018.

3. Megha Byali (August 2016 – July 2019): Thesis based on: *ACM CCS 2019.*
   (a) Thesis Title: Practically Efficient Secure Small Party Computation over the Internet
   (b) Thesis based on: *ACM CCS 2019.*
   (c) Publications: *PoPETS 2020, ACM CCS 2019, ACM CCS 2018*.
   (d) Awarded ***Swamy medal for the best M.Tech. Research thesis in the Dept. of Computer Science & Automation, IISc in 2020.***
   (e) Current employment: Citrix
4. Swati Singla (August 2016 – July 2019):
   (a) Thesis Title: Honest Majority and Beyond: Efficient Secure Computation over Small Population
   (b) Thesis based on part of *ACM CCS 2019*
   (c) Publications: *ASIACRYPT 2020, ACM CCS 2019*.
   (d) Current employment: Google
5. Harsh Choudhary (August 2017 – December 2019):
   (a) Thesis Title: Privacy Preserving Machine Learning via Multi-party Computation
   (b) Thesis based on: *PoPETs 2020.*
   (c) Publication during the programme: *PoPETs 2020, ACM CCSW 2019, PPML 2019*.
   (d) Current employment: PhD at NorthEastern University

M. Tech

1. Masavir Khliq(January 2022 – July 2023): Thesis Title: Privacy Preserving Recommendation System using Matrix Factorization.
2. Ankit Kumar (January 2022 – July 2023): Thesis Title: Privacy Preserving Spatio-Temporal Attention-Based Neural Network for Credit Card Fraud Detection.
3. Hemant Misra (January 2022 – July 2023): Thesis Title: Privacy-preserving Graph Neural Network based Models
4. Somya Sangal (January 2021 – July 2022):
   (a) Thesis Title: Privacy-preserving Heavy-Heaters.
   (b) Received ***B. R Selvam Thesis Endowment Award 2022 for best M. Tech thesis.***
5. Abhishek Tyagi (January 2021 – July 2022): Thesis is on Secure Allegation Escrow
6. Mahak Pancholi (January 2019 – July 2020):
   (a) Thesis Title: A Robust PPML framework for Three Servers
   (b) Received ***CISCO scholarship 2019***.
   (c) Publications: *USENIX'21*.
7. Arun Joseph (January 2017 - July 2018):
   (a) Thesis title: A Framework for Efficient Secure Three-Party Computation
   (b) Publications: *ACM CCS'18*.
8. Divya Ravi (January 2015 - July 2016):
   (a) Thesis title: On Verifiable Secret Sharing With Honest Majority
   (b) Publications: *ICITS'17, SIROCCO'18, DISC'17 (Brief Annoucement)*.
   (c) Continued to do PhD under my supervision from August 2016.
9. Dheeraj Ram (January 2015 - July 2016):
   (a) Thesis title: On Scalable Secure Computation
10. Aakar Deora (January 2014 - July 2014):
    (a) Thesis title: On Verifiable Secret Sharing With Honest Majority

General Information

1. Mountaineering: Recently, I embarked on a unique journey— I am on a mission called "Expedition Aparajita", as a part of which I plan to climb the highest mountains and the highest volcanic mountains of seven continents, known as seven summits and seven volcanic summits. The genesis, goal and other details of "Expedition Aparajita" is meticulously drafted in this ***website***. Women empowerment is the primary motive, yet not the only one. Expedition Aparajita is dedicated to all girls on Earth who are denied their life, right, respect, dream and passion. Under "Expedition Aparajita", I have already summited (a) Mt Kilimanjaro in Tanzania, which is the highest peak in Africa and also the highest free-standing mountain in the world, with an altitude of 5895m on 17th July 2024 (b) Mt Elbrus in Russia, which is the highest peak in Europe on 31st August 2024. (c) Mt Wilhelm and Mt Giluwe in Papua New Guinea, the first is the highest in PNG and also in Oceania for some interpretation of geopolitical boundary and the second one is the highest volcanic peak in Oceania on 29th May and 25th May 2025 (d) Mount Kosciuszko, the highest peak of oceania (based on Bass List of Seven Summits) on 17th May 2025
2. Photography: I love photography and here is my ***photo-steam***. I have organized my solo photography exhibition at the department of CSA, IISc as a part of ACM India Grad Cohort and co-sponsored by ACM between 7th – 25th July 2023. My photography skills have been acknowledged. ***This*** photograph was selected as the BIG PICTURE of the week by 'The Telegraph, UK'. Between 7th-25th July 2023,

This photograph had got honorable mention in the photo contest organized by 'PhotoContests.com' in the 'Reflection' category.

3. Painting: I absolutely enjoy painting which I started recently. Here is the *Album* of my paintings.
4. Sports: I am a passionate sports person and am keen in Running, Swimming, Badminton, Cycling. I have checked my ability upto half marathons so far. I have come first in 5KM marathon (women category) at IISc annual sports event Spectrum 2023, IIIT Bangalore's annual sport event Spandan 2015 and have come 2nd in 10 KM in IISc's annual sport event Spectrum 2018. I have won 3 gold medals and one silver medal in EECS IISc sports meet 2022. I have won 6 medals in Spectrum 2023– IISc's annual sports meet. I have got Gold medals in singles, doubles and mixed doubles in IISc Independence Cup Badminton tournament 2023. I have got two gold, 1 silver and 3 bronze medals in EECS IISc sports meet 2023.
5. Yoga: I am a Yoga Enthusiast. I can do 108 Surya Namaskara at a stretch and have received certificate of commendation for that on International Yoga day.
6. Martial Arts: I am a Yellow Belt in Hapkido - A Self Defence Based Korean Martial Arts.
7. Writing: As and when the fancy of writing strikes me, I put down my thoughts in these spaces *FaceBook*, *LinkedIn*, *Instagram*, *Blog*.
8. Other Hobbies: Reading books in Bengali and English on varieties of topics.
9. Languages known: English, Hindi and Bengali (Mother Tongue).
10. I am an Indian citizen.
