

# Komondoor V Raghavan

raghavan@iisc.ac.in • <https://www.csa.iisc.ac.in/~raghavan>

## *Research Interests*

My research interests are broadly in the areas of programming languages, program analysis, and software engineering. I am particularly interested in developing automated, semantics-based tools that help programmers understand, verify, and evolve programs, in an agile and reliable manner. Most of my research is centered around static and dynamic analysis of programs, program transformations, as well as analysis and verification of formally specified requirements and designs.

## *Education*

### **PhD in Computer Sciences**

**Univ. of Wisconsin-Madison.**

Thesis: Identifying and eliminating duplication in source code.

Adviser: Prof. Susan Horwitz.

GPA: 3.85 / 4

Date: Aug. '03

### **Master of Technology in Computer Sciences**

**Indian Institute of Technology, Bombay, India.**

Thesis: System for automatically generating code optimizers.

Adviser: Prof. D. M. Dhamdhere.

Avg. Grade: 9.76 / 10

Date: Jan '96

### **Bachelor of Engineering in Computer Sciences**

**Government College of Tech., Coimbatore, India.**

Thesis: Implementation of a run-time debugger.

Avg. Marks: 85%

Date: May '94

## *Work and Research Experience*

- Associate Professor at *Indian Institute of Science, Bangalore* (Jul. '15 to present).
- Visiting Faculty at *IIT Bombay* (May '19 to June '19).
- Visiting Faculty at *National University of Singapore* (Aug. '16 to Jan. '17).
- Assistant Professor at *Indian Institute of Science, Bangalore* (Aug. '08 - Jun. '15).
- Research Staff Member at *IBM India Research Lab, New Delhi* (Oct. '05 - Jul. '08).
- Postdoc Researcher at *IBM T. J. Watson Research Center*, with Advanced Programming Tools group (Dr. John Field) (Sep. '03 - Sep. '05).
- Summer Intern at *IBM T. J. Watson Research Center*, with Advanced Programming Tools group (June - Aug. '02).
- Summer student at *IBM Toronto Lab* (Sep. - Dec. '00, June - Aug. '01).
- Summer Intern at *Lucent Bell Labs*, with Databases group (Dr. Rajeev Rastogi) (June - Aug. '98).
- Project Engineer at *Indian Institute of Technology, Bombay*, with Prof. S. Sudarshan (Jan '96 - July '97).

*Last updated 2020/05/28*

## *Activities and Awards*

- Program committee memberships
  - Chair of PhD Symposium committee of India Software Engineering Conference (ISEC): 2020
  - IARCS Annual Conference on Foundations of Software Technology and Theoretical Computer Science (FSTTCS): 2020
  - IEEE/ACM International Conf. on Automated Software Engineering (ASE): 2019, 2020.
  - IEEE Int. Conf. on Software Analysis, Evaluation, and Reengineering (SANER): 2019.
  - Int. Conf. on Software Engg. (ICSE) – Workshops Track: 2019.
  - IEEE International Conference on Software Maintenance and Evolution (ICSME): 2011, 2012, 2018, 2019.
  - India Software Engineering Conference (ISEC): 2010-2013, 2015, 2020.
  - IEEE Int. Working. Conf. on Source Code Analysis and Manipulation (SCAM): 2014, 2015, 2016, 2018.
  - Int. Conf. on Software Engg. (ICSE): 2018.
  - 33rd IEEE/ACM International Conf. on Automated Software Engineering (ASE ) – Tool Demo Track: 2018.
  - Int. Symp. on Automated Technology for Verification and Analysis (ATVA): 2017.
  - Inter-Research-Institute Student Seminar in Computer Science (IRISS): 2015, 2016, 2017.
  - Int. Conf. on Software Engg. (ICSE) – Software Engineering in Practice (SEIP) Track: 2014, 2016.
  - IEEE Int. Conf. on Software Analysis, Evaluation, and Reengineering (SANER) – Industry Track: 2016.
  - ACM India Compute: 2015.
  - Asia-Pacific Software Engineering Conference (APSEC): 2015.
  - ACM Symposium on Principles of Programming Languages (POPL) – External Review Committee: 2015.
  - ACM Symp. on Applied Computing (SAC): 2009-2011, 2015.
  - Int. Conf. on Program Comprehension (ICPC) – Industry Track: 2014.
  - Working Conference on Reverse Engineering (WCRE): 2013, 2014.
  - Asian Symp. on Programming Langs. and Systems (APLAS): 2008, 2014.
- Sponsored projects
  - Siemens India (2019-)
  - Tata Consultancy Ltd. (2017-)
  - Nucleus Software Exports Ltd. (2015-2018)
  - Indo-German Max Planck Center for Computer Science (2011-2016)
  - ISRO-IISc Space Technology Cell (2012-2013)
  - Infosys Ltd. (2010-2012)
- Research grants
  - Microsoft Research India grant (2009, 2013)

- IBM Faculty Award (2008)
- Consultancy
  - Flytxt Ltd. (2018)
  - Tarang Ltd. (2013)
- Awards
  - Distinguished reviewer award by Program Committee of IEEE/ACM Int. Conf. on Automated Software Engineering (ASE), 2019.
  - Distinguished reviewer award by Program Committee of Working Conf. on Reverse Engineering (WCRE), 2013.
- Events co-organized
  - 1st Software Engineering Research in India (SERI) Update Meeting, July 2019.
  - Joint workshop by IISc, Microsoft Research, and U. Pennsylvania on Programming Languages, Formal Methods, and Cyber-Physical Systems, January 2019.
  - Winter School in Software Engineering, organized by ACM iSoft, December 2017.
  - IMPECS-POPL Workshop on Emerging Research & Development Trends in Programming Languages, January 2015.
  - Future of Debugging, as part of the *Mysore Park Series*, 2012.
- Fellowships (during PhD study)
  - IBM PhD Fellowship (2002)
  - IBM CAS Fellowship (2000-2001)
- Helped write Instructors Manual for “Database System Concepts”, 3rd Edition, McGraw-Hill, by Silberschatz, Korth, and Sudarshan.

### *Invited Talks and Tutorials*

1. *Analysis and synthesis of software systems for uncertain environments.* Second Workshop on Software Engineering for an Uncertain World, co-located with Innovations in Software Engineering Conference (ISEC), February 2020.
2. *Refinement in object-sensitivity points-to analysis via slicing.* Celebration of Automated Software Engineering (ASE), co-located with IEEE/ACM Int. Conf. on Automated Software Engineering (ASE), San Diego, USA, November 2019.
3. Keynote talk on abstract interpretation. 5th IEEE International Conference on Advances in Computing and Communication Engineering, at Bannari Amman Institute of Technology, April 2019.
4. *Abstract interpretation – a framework for program analysis and verification.* 6th Undergraduate Summer School, organized by Dept. of CSA, IISc, July 2018.
5. *Abstract interpretation – a framework for program analysis and verification.* Summer School on Theoretical Foundations of Computer Science, organized by IIIT Bangalore, June 2018.
6. *Static analysis to enable verification and transformation of data-intensive business applications.* Workshop on Formal Methods for Analysis of Business Systems (Formabs), Singapore, Sep. 2016.

7. *Null-dereference analysis using weakest pre-conditions*. Int. Conference on Computational Methods and Software Engineering, organized by College of Engineering, Guindy, Chennai, 2015.
8. *Null-dereference analysis using weakest pre-conditions*. Workshop on Research Issues in Computer Science and Engineering, organized by Ballari Institute of Technology and Management, Ballari, 2015.
9. *Introduction to abstract interpretation*. Continuing Education Programme, Defense Research and Development Organization (DRDO) – Center for Artificial Intelligence and Robotics (CAIR), Bangalore, 2014.
10. *Null-dereference analysis using weakest pre-conditions*. 7th National Workshop on Recent Trends in Software Testing (RTST 2014), organized by NIT Rourkela, 2014.
11. *Precise slicing using term-rewriting and abstract interpretation*. 32nd CREST Open Workshop, organized by University College London (UCL), 2014.
12. *Null-dereference analysis using weakest pre-conditions*, and *Precise slicing using term-rewriting and abstract interpretation*. Software Engineering Workshop, organized by NITK Surathkal, 2014.
13. *Introduction to conceptual modeling using Alloy*. Workshop on Industry Oriented Software Engineering, organized by Siddaganga Institute of Technology, Tumkur, sponsored by TEQIP – AICTE, 2013.
14. *A survey on program slicing techniques*. Formal Methods Update Meeting, organized by Formal Methods in India group at IIT Delhi, 2013.
15. *Introduction to program verification using SpecSharp*. Staff Development Program (SDP), sponsored by AICTE, organized by PSG College of Technology Coimbatore, in 2013.
16. *Null-dereference analysis using weakest pre-conditions*. Workshop on “Making Formal Verification Scalable and Usable”, organized by Chennai Mathematical Institute, 2013.
17. *Introduction to program verification using SpecSharp*. PG Lecture Series, sponsored by Karnataka Science and Technology Academy (KSTA), held in SJCE College Mysore, 2012.
18. *Introduction to conceptual modeling using Alloy*. School on Software Engineering, co-located with 9th Int. Colloquium on Theoretical Aspects of Computing (ICTAC), Bangalore, 2012.
19. *Introduction to program verification using SpecSharp*. ISRO’s Structured Training Program on Software Engineering, Trivandrum, 2012.
20. *Recovering logical data models from legacy systems*. TCS Ltd.’s internal conference TacTics, 2012.
21. *Introduction to program verification using SpecSharp*, and *Introduction to conceptual modeling using Alloy*. Vellore Institute of Technology (VIT)’s faculty development program, 2011.
22. *Recovering logical data models from legacy systems*. India Workshop on Reverse Engg. (IWRE), 2011.
23. *Bug detection using FindBugs*. International Symp. on Software Reliability and Engg. (ISSRE), Mysore, 2009.
24. *A survey of techniques for formal analysis of loops in programs*. IBM India Research Lab’s annual technical event (I-CARE), 2009.

25. *Introduction to abstract interpretation*. The “Ramanajun Rediscovered” conference on Mathematics and Information Technology, organized by IIT Bangalore and Indian Mathematical Society, 2009.
