## Additional Comments

Sl. No	Comments
1	After lockdown course was not conducted. Neither the exams were conducted. So some of the topics were not covered.
2	At the end of each topic, recent research work going in that area should be presented, this would enable students to get a headstart if they want to do research in that sub-topic.
3	Because of the assignment, we got a chance to do kernel level coding. Thank you so much for this type of assignment
4	Could have taken classes or giving some reading material during the lockdown instead of just finishing off the course abruptly. Expected to learn more from the course.
