What positives would you highlight about the course and/or the instructor(s)?

SI. No	Answers
--------	---------

SI. No	Answers
1	Good conceptual depth.
2	It was great! I learnt a lot from the course, especially the hands on experience was superb! The instructors were helpful , paced the lectures nicely, and made us comfortable and curious with the topics.
3	Everything was good with proper explanation of topics in depth as well as immediate trial of programs in the class along with the doubt clearance.
4	Very smart very good very disciplined
5	Good course content. The practical demonstrations by professor were a lot interesting and insightful. The commitment to experiment and even kill the root process for a doubt was commendable.

What are your suggestions for improvement?

SI No.	Answers
1	Should move a little slower as some of us are having a first exposure to computer science
2	No improvements required, It was great!
3	If there would have been a lab component of this course, it would have been very much useful for understanding it easily and in more depth.
4	Could have gone a little slower in the beginning
5	If possible, change the class timings. (most students feel sleepy if the class is just after lunch)
